

Mac users: Uninstalling the old Canasta Junction

To easily uninstall older Canasta Junction versions installed in macOS:

1. Run the **Finder** app by clicking on . You may also click on any empty area on your desktop
2. On the **Finder** menu at the top-left corner of your screen, select **Go** then **Applications**
3. Locate and select **Canasta Junction** in the applications list:

4. Select **Canasta Junction** (click once on it), then delete it by:
 - Holding the key  and pressing **delete** on your keyboard; or
 - Right-click Canasta Junction and select Move to Trash
5. If you're asked for a username and/or password, enter the credentials you use to log in to your Mac.

If you need additional help, please check this [article from Apple](#).

Windows PC users: Uninstalling the old Canasta Junction

There are different ways to remove apps and programs on Windows PC computers, depending on your Windows version.

Windows 11

- Uninstall from the Start menu** →
1. Select **Start**  > **All apps** and search for the app in the list shown
 2. Press and hold (or right-click) on the app, then select **Uninstall**

- Uninstall in Settings** →
1. Select **Start**  > **Settings**  > **Apps** > **Apps & features** 
 2. Find the app you want to remove, select **More** > **Uninstall**.
